## MESSAGE FROM THE CEO

# Jon Looman

I would like to thank all the members of Trenton Federal Credit Union for making 2009 another excellent year for the Credit Union. During 2010 TFCU plans to convert to a new computer system on the weekend of July 31 – August 1st. As always, our goal is to provide superior member service, and we are working diligently to ensure that the transition to the new system is executed as smoothly as possible. However, the conversion will require a brief service outage and there will be some changes that will impact our members.

*Right now this conversion requires no action on the part of our members – just awareness. We only ask that you please look for more information from your credit union over the coming weeks. We'll be communicating through regular mail, email, at our branches, via our website. Keeping you informed is our top priority.*

Ultimately, this system upgrade will improve the long-term efficiency of your financial institution and enable us to continue to provide great rates and member service. We hope you will see the short-term outages as a small price to pay for improvements that will lay the groundwork for service enhancements for years to come.

Thank you for supporting Trenton Federal Credit Union as we grow.

Sincerely,  
Jon Looman
